

Manual testing Plan

<https://trello.com/b/T6SMqtiy/qa-project-assessment>

The screenshot shows a Trello board titled "QA Project/Assessment" with a dark theme. The board is organized into four columns, each with a header and a list of cards. The top navigation bar includes a "Board" dropdown, the board name, a star icon, the workspace name "MChaudry's Workspace", a "Public" toggle, a user profile icon, and an "Invite" button.

- To Do**: Contains one card titled "Test Plan for Tic Toc Game".
- Test Passed**: Contains three cards:
 - Test Case: A single player should be able to start the game
 - Test Case: Players should be able to put one O or X at a time.
 - Test Case: Players can place an X or O on the board.
- Test Failed**: Contains three cards:
 - Test Case: It should declare who won correctly.
 - Test Case: When 3 Os or Xs are lined up then it would be declared winner.
 - Test Case: The app should add uppercase X or uppercase O.
- Bug Report**: Contains three cards:
 - The app falsely declares the 'loser' as 'winner'
 - The app automatically changes an X to an 'o' in the leftmost square in middle row.
 - The app sometimes uses a lower case 'o' instead an uppercase 'O'

Each column has a "+ Add a card" button at the bottom, along with icons for adding attachments and comments.
